1. Representa em cada relógio as seguintes horas do dia:

a) Nove horas

b) Dez e um quarto

c) Meio dia

d) Três e trinta da tarde

e) Um quarto para as seis da tarde

f) Vinte horas e meia

g) Nove horas e quarenta e um minutos

h) Meia noite e 3 minutos

2. Observa os relógios e escreve as horas correspondentes.

3. A Susana observou o ponteiro dos minutos de um relógio a mover-se do 7, quando começou a estudar, até ao 3, quando parou para lanchar. Durante quanto tempo esteve a Susana a estudar antes do lanche?
